Transforming Lives through Theater**

NEXT STEPS Theater Academy classes

Using research-based best practices, Next Steps serve young people through our philosophy of teaching life skills through stage skills. We strive to help each student take his or her next steps as an artist and a person.

We serve both verbal and non-verbal students, students with classic autism, PDD-NOS, other sensory processing disorders, and Asperger's. With small class sizes, our curriculum explores acting, singing, dancing and improvisation, through which students improve social understanding, fine and gross motor skills, empathy, conversation skills, public speaking and confidence.

CLASS DESCRIPTIONS

ACTING: Explore character, relationships, action and text while developing overall acting skills and confidence.

MUSICAL THEATER: Increase your versatility and work on new vocal and dance techniques while exploring the art of telling a story through words, music and movement.

CLASS SIZES

There are eight students per class. Our classroom model includes teams of lead teachers, special education professionals, and teaching assistants with approximately a 2:1 and often 1:1 student to teacher ratio. Family aides may accompany a student to class as necessary and agreed upon between the family and First Stage.

Mush with the dogs

You don't have to travel to Alaska to get in some dog-sledding action.

Every winter, mushers Bonnie Ulrich and Rick Desotelle bring their team of rescued huskies to Milwaukee for rides at McKinley Marina along Milwaukee's lakefront and later in Whitnall Park. Rides take place Saturdays and Sundays from 11 a.m. to 1 p.m. and cost \$15. Kids ride in the sled while Ulrich or Desotelle drives the team. Before and after the short ride on a trail the size of a football field, kids can ask questions, visit and take pictures with the dogs.
